#### REPORT

OF

### THE CENSUS OF 1891.

To His Excellency the Right Honourable Sir Frederick Arthur Stanley, Baron Stanley of Preston, in the County of Lancaster, in the Peerage of Great Britain, Knight Grand Cross of the Most Honourable Order of the Bath, Governor-General of Canada, and Vice Admiral of the same, &c.

MAY IT PLEASE YOUR EXCELLENCY :-

i have the honour to submit the Report of the Census of the Dominion of Canada taken in the month of April of the year 1891.

The whole respectfully submitted.

A. R. ANGERS,
Minister of Agriculture and Statistics.

Department of Agriculture and Statistics, Ottawa, December, 1892.

#### RAPPORT

DU

## RECENSEMENT DE 1891.

A Son Excellence le Très honorable Sir Frederic Arthur Stanley, Baron Stanley de Preston, dans le comté de Lancaster, dans la pairie de la Grande-Bretagne, chevalier Grand-Croix du très-honorable ordre du Bain, gouverneur général du Canada, et vice-amiral d'icelui, etc.

Qu'IL PLAISE À VOTRE EXCELLENCE :-

J'ai l'honneur de vous soumettre le rapport du Recensement du Canada pris durant le mois d'avril de l'année 1891.

Le tout respectueusement soumis.

A. R. ANGERS,
Ministre de l'Agriculture et de la Statistique.

Département de l'Agriculture et de la Statistique, Ottawa, décembre 1892.

### CANADIAN STATISTICS.

#### CENSUS OF 1891.

To the Honourable A. R. Angers, Minister of Agriculture and Statistics.

SIR,—I have the honour to lay before you the Report of the Census of 1891, in such a state of progress as may at once allow of the printing being proceeded with.

The detailed statement of the proceedings and labours of the Census of 1891 will be found in the introduction to the first volume of the Report.

I have the honour to be, sir,

Your obedient servant,

GEORGE JOHNSON, Statistician.

Department of Agriculture, Ottawa, December, 1892.

## STATISTIQUES DU CANADA.

#### RECENSEMENT DE 1891.

A l'honorable A. R. Angers, ministre de l'Agriculture et de la Statistique.

Monsieur,—J'ai l'honneur de vous soumettre le rapport du recensement de 1891, dans un état d'avancement suffisant pour permettre d'en commencer de suite l'impression.

Vous trouverez dans l'introduction du premier volume du rapport, un état détaillé des procédés et travaux du recensement de 1891.

J'ai l'honneur d'être,

Monsieur,

Votre obéissant serviteur,

GEORGE JOHNSON,

Statisticien,

Département de l'Agriculture, Ottawa, décembre 1892.

## CENSUS OF 1890-91.

#### INTRODUCTION.

T.

The Census of 1890-91, the third since the passing of the British North America Act (1867), has been made under the authority of the "Census Act," 42 Victoria, chap. XXI. and Revised Statutes, 1886, chap. 59.

There will be an introduction and an index to each volume of this report. The information regarding population and property is a statement of facts existing on the 5th day of April, 1891, that day having been selected by the several authorities throughout the Empire as census day. The information relating to the census year is for the twelve months dating from the 6th day of April, 1890.

The system adopted for the enumeration of the population is that known as the de jure plan, which is the same system as that employed in the previous Census takings of Canada. A change was made in one important particular in taking the Census of 1891; a time-limit was for the first time introduced. The directions to the enumerators were as follows: "As considerable doubt has been expressed respecting the accuracy of returns where no time-limit is established, it is proposed to make a change in this regard for the Census of 1891. There are many persons who are absent from Canada about whose right to be counted in our Census there is no doubt. Thus, seamen away for one, two or three years, whose wives and families are in Canada and whose domicile, consequently, is in Canada, should be taken by the enumerator. In the same way, children abroad for their education, though absent for two or more years are to be taken with their parents. There is, however, a large class of persons who are away from Canada about whom their parents may reasonably be in doubt whether it is their purpose to return to Canada. In these cases, after exhausting inquiry without satisfactory result, the enumerator is to ask: 'Have these persons been away for twelve months?' If the answer is 'Yes,' then these are not to be taken in the Census, the presumption being that they have abandoned Canada and settled elsewhere. The same rule will hold good in cases where members of a family have left one province and settled in another."

The directions respecting Domestic Servants were framed with great care so as to prevent duplication of names arising from persons in this class being taken in their parents' homes and also in the homes of their employers.

In every particular, care was taken to avoid the danger of duplication to which the de jure system is specially liable.

II.

In the absence of a permanent staff available for Census purposes, such for instance as that which forms part of the Registrar General's Department, in England, it we necessary to organize in every detail a special staff, and to adopt a peculiar mode of

## RECENSEMENT DE 1890-91.

#### INTRODUCTION.

I.

Le recensement de 1890-91, le troisième depuis la passation de l'Acte de l'Amérique Britannique du Nord, 1867, a été fait par autorité de l'"Acte du Recensement," 42 Victoria, chapitre XXI, et les Statuts revisés de 1886, chapitre 59.

Chaque volume de ce rapport aura son introduction, comme aussi son index. Les renseignements relatifs à la population et à la propriété, sont l'état des faits tels qu'existant au jour du 5 avril 1891, ce jour ayant été choisi par les diverses autorités pour tout l'empire comme "le jour du recensement." Les renseignements qui s'appliquent à l'année du recensement datent du 6 avril 1890. Le système adopté dans le dénombrement de la population est celui de la population de droit qui est aussi celui qui a été adopté pour les autres recensements de ce pays. Un changement important a été fait en prenant le recensement de 1891; pour la première fois, nous avons introduit une limitation de temps Les instructions aux énumérateurs ont été comme suit: "Comme on a exprimé des doutes sur l'exactitude des chiffres de la population où il n'y a pas de limitation de temps d'absence établie, on se propose de faire un changement à cet égard dans le recensement de 1891. Il y a plusieurs personnes qui sont absentes du Canada, mais dont le droit d'être comptées dans notre recensement ne laisse aucun doute. exemple, le marin absent, depuis deux ou trois ans, mais dont la femme et la famille sont domiciliées en Canada, devra être compté avec sa famille par l'énumérateur. les enfants absents à l'étranger pour leur éducation, devront être aussi comptés avec leurs parents quoique absents pour deux ans ou plus. Il y a cependant un bon nombre de personnes absentes du Canada et dont le retour dans ce pays est une chose incertaine. Dans ces cas-là, l'énumérateur, après avoir obtenu tous les renseignements possibles, sans résultat satisfaisant, devra faire la question suivante : 'Ces personnes sont-elles absentes du pays depuis plus de douze mois?' Si la réponse est 'oui,' alors ces personnes ne seront pas comptées dans le recensement, la présomption étant qu'elles ont abandonné le Canada et se sont établies ailleurs. La même règle s'appliquera aux cas où les membres d'une famille ont quitté une des provinces du Canada pour aller s'établir dans une autre."

Les instructions pour ce qui regarde les serviteurs ont été préparées avec un soin tout particulier, afin d'empêcher la répétition des noms, ce qui serait arrivé si les personnes de cette classe eussent été inscrites aux demeures de leurs parents, et aussi chez les personnes qui les emploient. On a apporté le plus grand soin à chaque entrée, afin d'éviter la répétition des noms, ce à quoi on est exposé avec le principe adopté de la population de droit.

II.

En l'absence d'un personnel permanent disponible pour l'exécution d'un recensement, comme celui, par exemple, qui appartient au bureau du registraire général, en

instruction. The staff consisted, 1st, of a body of Census Chief Officers; 2nd of a body of County Commissioners, and 4th of a body of District Enumerators. The Census Chief Officers numbered four for Ontario, the province being mapped out into four divisions; four for Quebec, with a corresponding number of geographical divisions, and one for each of the other Provinces. These officers were Messrs. Geo. A. Sargison, for British Columbia; H. S. Donaldson, for Manitoba; Edwin B. Beer, for New Brunswick; Jonathan Parsons, for Nova Scotia; Andrew Broder, P. McRae, E. J. Toker and Rufus Stephenson, for Ontario; Richard Hunt, for Prince Edward Island; J. A. Charlebois, W. E. Jones, P. N. Martel and L. A. Chauvin, for the Province of Quebec, and B. P. Richardson, for the North-West Territories.

These gentlemen were summoned to Ottawa, supplied with the Manual and instructed in every particular about which they were doubtful.

The second body of officers, the County Commissioners, numbered 241, and the third, the Enumerators, numbered 4,366. The County Commissioners were called together in convenient centres and instructed by the Chief Officers. The same course was followed by the County Commissioners in their instruction of the Enumerators. Each Enumerator was supplied with the manual of instructions and with a set of specimen schedules, for his guidance in the actual work of the field.

The number of enumerators was one-third greater than in 1881. But the mode of payment was different, and a fair measure of success in the attainment of the end aimed at—viz., the speedy return of the schedules to the department—was secured without addition to the cost of enumeration.

The enumeration schedules were eight in number.

1st. Schedule No. 1.—Nominal return of the living, containing 25 columns for the insertion of information relating to the following subjects: Residences; names; sexes; ages; civil condition; relation to head of family; birth places; French Canadian or not; place of birth of father and of mother; religion; occupation, whether employer or wage earner and, if wage earner, whether employed during the week preceding the Census; if employer, number of hands employed; educational status, and infirmities whether deaf and dumb, blind or unsound of mind.

This schedule contained 5 columns more than the corresponding schedule of 1881.

2nd. One of these columns, that relating to the description of the houses the people of Canada live in, is new. It called for the number of wooden, brick, stone and composite houses and the number of stories and rooms in each, in Canada. The compilation and condensation of the information about the dwellings of the people required over 16,000 sheets (24 by 12 inches) of paper.

Schedule No. 2; Nominal return of deaths, within the twelve months ended April 5th, 1891. The particulars asked for in this schedule were names of deceased, sex, age, month of birth if born in Census year, religion, country of birth, occupation, civil condition, month of death and cause of death. These inquiries occupied 10 columns. The 11th, 12th and 13th columns were for public institutions.

Schedule No. 3.—Real estate, orchard products, nurseries, vineyards and market gardens, containing 25 columns applying to the ownership and occupation of real property, the products of the orchard, etc.

This schedule contained 6 columns more than schedule 3 of the census of 1881.

Angleterre, il a fallu organiser dans tous ses détails, un bureau spécial, et adopter un genre particulier d'instructions. Le personnel était composé comme suit :—

- 1. Un corps d'officiers en chef du recensement.
- 2. Un corps de commissaires de comté.
- 3. Un corps d'énumérateurs de district.

Le nombre d'officiers en chef du recensement était de quatre pour Ontario, cette province étant divisée en quatre parties ; quatre pour Québec, ayant le même nombre de divisions géographiques, et un pour chacune des autres provinces. Ces officiers étaient MM. George A. Sargison, pour la Colombie-Anglaise ; H. S. Donaldson, pour le Manitoba ; Edwin B. Beer, pour le Nouveau-Brunswick ; Jonathan Parsons, pour la Nouvelle-Ecosse ; Andrew Broder, P. McRae, E. J. Toker et Rufus Stephenson, pour Ontario ; Richard Hunt, pour l'Île du Prince-Edouard ; J. A. Charlebois, W. E. Jones, P. N. Martel et L. A. Chauvin, pour la province de Québec ; et B. P. Richardson, pour les Territoires du Nord-Ouest. On a fait venir ces messieurs à Ottawa où on leur a donné le manuel et toutes les instructions nécessaires sur toutes les questions concernant le recensement.

Le second corps d'officiers était composé de commissaires de comté au nombre de 241; et le troisième, d'énumérateurs au nombre de 4,366.

On a assemblé les commissaires de comté dans différents centres convenables, et là les instructions des officiers en chef leur furent transmises. Le même système a été suivi par les commissaires de comté, quant aux instructions à être données aux énumérateurs. Le manuel d'instruction fut remis à chacun des énumérateurs, ainsi que les tableaux-exemples pour leur servir de guide le temps qu'ils seraient à l'ouvrage.

Le nombre d'énumérateurs a été d'un tiers de plus qu'en 1881, mais on a suivi une autre méthode de paiement, et sans addition au coût de l'énumération on a assez bien réussi dans le but que l'on s'était proposé, de recevoir promptement les tableaux au département.

Le nombre des tableaux des énumérateurs était de huit :

l'insertion des renseignements ayant trait aux sujets qui suivent : demeures, noms, sexes, âges, état civil, lien de parenté avec le chef de famille, lieux de naissance, Canadien-Français ou autres, lieux de naissance du père et de la mère, religion, profession, patrons ou employés, si employé de dire s'il a été occupé durant la semaine précédant le dénombrement; si patrons, le nombre d'employés, instruction, infirmités, soit sourds-muets, aveugles, ou atteints d'aliénation mentale.

Ce tableau comprend 5 colonnes de plus que le tableau correspondant de 1881. Une de ces colonnes, celle concernant la description des maisons habitées, est tout à fait nouvelle. Elle comprend le nombre de maisons en bois, en briques, en pierres et de différents matériaux en Canada, et le nombre d'étages et de chambres pour chacune de ces maisons. La compilation et la condensation de la statistique relativement aux domiciles des familles a pris au-dessus de 16,000 feuilles de papiers de 24 pouces par 12.

Tableau n° 2.—Dénombrement des décès dans les douze mois expirés le 5 avril 1891. Les détails demandés dans ce tableau sont, le nom des personnes décédées, leur sexe, âge, mois de naissance si les enfants sont nés durant l'année du recensement, religion, pays de naissance, occupation, état civil, mois du décès, cause du décès. Ces détails occupent 10 des colonnes du tableau, les 11°, 12° et 13° sont pour les institutions publiques.

Tableau n° 3.—Biens-fonciers, produits du verger, pépinières, vignobles et jardins, contient 25 colonnes ayant rapport à la possession et à l'occupation des biens-fonciers, des produits du verger, etc.

Ce tableau a 6 colonnes de plus que le tableau n° 3 du recensement de 1881.

Schedule No. 4.—Return of farm products containing 32 columns (one more than the corresponding schedule of 1881) and all relating to agriculture.

Schedule No. 5.—Return of live stock, animal products, home made fabrics and farm labour, containing 29 columns, or nine more than the corresponding schedule of the 1881 Census.

Schedule No. 6.—Industrial establishments, containing 23 columns all relating to manufacturing in Canada. In the Census of 1891 manufacturing was given a schedule to itself instead of, as in 1881, forming part of schedule 3. We were thus enabled to ask for returns more in detail than had been sought in the previous Census. Thus capital employed was divided for the first time into fixed and working—and the fixed capital distributed under three heads—"In land," "in buildings" and "in machinery." Information was also sought as to the months in which the industrial establishments were in operation, whether full time, half or quarter time, during the Census year. Columns were prepared for the registering of the horse-power employed in driving the machinery and whether it was steam or water power.

Schedule No. 7.—Return of Products of the Forest, containing 24 columns.

Schedule No. 8.—Shipping and Mining, containing 25 columns.

Schedule No. 9.—Fisheries, containing 30 columns.

In all, the schedules of 1891 contained 226 columns against 172 in the schedules of 1881. In addition, by a combination of letters and figures inserted in columns 1, 2 and 3 of the first schedule and not interfering with the returns specially sought in these columns, the information relating to the description of materials used in building the houses, of the land, &c., was obtained. Practically therefore, there were 68 additional columns used in the Census of 1891.

These Census schedules were filled up by the enumerators themselves going from house to house, each within the limits assigned to him. The work was on the whole well done, as is evidenced from the fact that in schedule No. 2, the causes of leath were given in 93 cases out of a hundred as against only 74 in the hundred in 1881, and as against 95 in the hundred in the returns to the Registrar General of England, where the work is carried on continuously from year to year.

#### III.

For Census purposes, Canada was divided into 202 districts corresponding as nearly as possible with the electoral divisions for the House of Commons. These again were divided into 2,388 subdivisions.

According to Provinces the districts and sub-districts numbered as under:

		OF OND DETECTOR
Province.	Districts.	Sub-districts.
British Columbia	. 5	49
Manitoba	. 5	106
New Brunswick	. 15	162
Nova Scotia	. 19	379
Ontario		796
Prince Edward Island		70
Quebec	. 61	807
North-west Territories		12
Unorganized	. 1	7
	202	2,388
	202	4,000

Tableau n° 4.—Produit de la ferme. Il y a 32 colonnes (une de plus que celui du recensement de 1881) sur l'agriculture,

Tableau n° 5.—Animaux vivants, produits des animaux, étoffes de ménage, fourrures et travail, contenant 29 colonnes, ou 9 de plus que le tableau n° 5 du recensement de 1881.

Tableau n° 6.—Etablissements industriels, contenant 23 colonnes, chacune d'elles ayant trait aux industries du Canada. Pour le recensement de 1891, on a entré les industries dans un tableau spécial, au lieu de les inscrire au tableau n° 3 comme cela a été fait pour celui de 1881. Ainsi donc on a pu obtenir des renseignements plus détaillés dans ce dernier recensement. Par exemple, dans le capital employé, on a, pour la première fois, fait une différence entre le capital fixe et le capital actif ; on a de plus subdivisé le capital fixe en trois colonnes, savoir : en "terres," "en "bâtisses," en "machines ou outillage." On a aussi obtenu des renseignements quant aux mois durant lesquels l'ouvrage est fait dans les établissements industriels, soit pour un temps complet, la moitié du temps, ou le quart du temps, durant l'année du recensement. Des colonnes ont aussi été ajoutées pour l'enregistrement de la force employée pour mettre en mouvement les moteurs soit par vapeur ou par eau.

Tableau n° 7.—Produits de la forêts, contenant 24 colonnes.

Tableau n° 8.—Marine et mines, contenant 25 colonnes.

Tableau n° 9.—Les pêcheries, contenant 30 colonnes.

Les tableaux de 1891 contiennent en tout 226 colonnes, contre 172 pour les tableaux de 1881. En outre, par une combinaison de lettres et de chiffres insérés dans les colonnes 1, 2 et 3 du premier tableau, et qui n'affectent en rien les renseignements qui appartiennent à ces colonnes, on a obtenu un état des matériaux employés dans la construction des maisons du pays. Il y a donc eu en effet, dans le recensement de 1891, 68 colonnes de plus qu'en 1881.

Ces tableaux ont été remplis par les énumérateurs eux-mêmes, allant de maison en maison. L'ouvrage a été bien fait en général, ce qui est prouvé par le fait que dans le tableau n° 2 on a donné la cause pour 93 décès sur 100, contre 74 sur 100 en 1881, et contre 95 sur 100 dans les rapports du registraire général d'Angleterre, où cet ouvrage se fait, d'une année à l'autre, consécutivement.

#### TII

Le Canada, pour les fins du recensement, a été partagé en 202 districts, correspondant aussi exactement que possible aux divisions électorales et en 2,388 sous-districts.

Par provinces, les districts et sous-districts sont divisés comme suit :-

Provinces.	Districts.	Sous-districts.
2 20 122000		Sous-districts.
Colombie-Anglaise	5	49
Manitoba		106
Nouveau-Brunswick	15	162
Nouvelle-Ecosse	19	379
Ontario		796
Ile du Prince-Edouard	3	70
Québec	61	807
Territoires du Nord-Ouest	4	12
Non organisées	1	7
•	202	2,388

In some of the sub-districts further subdivision was found to be necessary on account of territorial extent, or comparative density of population. In these subdivisions the unit of the township and the parish was preserved where these existed. In the Province of Nova Scotia in several instances the only definite boundaries that could be followed were the shifting polling districts.

The Redistribution Act of 1882 created so many changes that it is necessary to warn persons, attempting comparisons, of this fact. Without a thorough knowledge of the changes, any attempt at comparing districts will produce misleading results. Thus for example, the electoral district of Bothwell, Ont., under the Redistribution Act of 1882, consisted of the townships of Dawn, Sombra, Camden, Chatham and Zone, and of the villages of Wallaceburg, Dresden and Thamesville, and the town of Bothwell. And these are accordingly included under the division "Bothwell," in the Census of 1891. In the Census of 1881, Bothwell consisted of the townships of Howard, Orford, Camden, Zone, Euphemia, Sombra and Dawn, Bothwell town and the villages of Ridgetown, Dresden and Thamesville. A comparison will show that Ridgetown village and the townships of Howard, Orford and Euphemia which appeared in the Bothwell of 1881 were not included in the Bothwell of 1891, and that the village of Wallaceburg and the township of Chatham in the Bothwell of 1891 were not in the Bothwell of 1881.

The Redistribution Act of 1892 caused further changes. A table will be given in the last volume of this report, showing the population in accordance with the latest redistribution.

For the purpose of ready reference geographical conditions have been disregarded, and provinces and all other divisions and subdivisions put in alphabetic order. It is believed that this change will greatly expedite references to the statistics contained in the volumes.

In order to reduce the size of the volumes as much as possible, the areas of the divisions and subdivisions have been given in a separate table. In this way we have been able to put 25 columns in a sheet of table II. instead of 21 as in the Census of 1881.

An additional improvement consists in the numbering of the lines both on the left and the right sides of the sheets.

#### IV.

The only titles at the head of the columns of table II. requiring, perhaps, some explanations are those referring to temporary dwellings under the titles of vessels and shanties. The vessels referred to are only those which at the date of the census-taking were inhabited by families; the enumeration of the merchant marine of the country belongs to another part of this report. The word shanty is used here in its local acceptation to denote dwellings hurriedly put up or the movable lodges of nomadic populations.

In the description of houses by material of which constructed, there were in Canada, 632 "not described," and 227 described as "sod houses." This is out of a total of 855,535 houses of all descriptions; or considerably under one-tenth of one per cent, showing the care taken by the enumerators. These 859 are not given in the table By provinces they are divided as follows: British Columbia, 1; Manitoba, 65; Ne

On a trouvé nécessaire pour quelques-uns des sous-districts d'en faire encore des subdivisions soit à cause de l'étendue territoriale ou de la densité de population. Dans ces subdivisions on a conservé l'unité du canton et de la paroisse s'il en existait. Dans la province de la Nouvelle-Ecosse, les seules bornes qu'on a pu suivre ont été celles des districts de votation avec leurs changements. L'Acte de redistribution de 1882 a donné lieu à tant de changements que nous croyons devoir en avertir toute personne qui désirerait faire quelque statistique de comparaison. A moins d'une connaissance parfaite des changements qui ont eu lieu, toute tentative de travail de comparaison par districts ne produirait qu'un résultat erroné.

Par exemple, d'après l'Acte de redistribution de 1882, le district électoral de Bothwell, Ont., comprenait les cantons de Dawn, Sombra, Camden, Chatham et Zone, les villages de Wallaceburg, Dresden et Thamesville, et la ville de Bothwell, et ceux-ci sont en conséquence compris dans le district de Bothwell pour le recensement de 1891. Pour le recensement de 1881, Bothwell comprenait les cantons de Howard, Orford, Camden, Zone, Euphemia, Sombra et Dawn, la ville de Bothwell, et les villages de Ridgetown, Dresden et Thamesville. Une comparaison nous montrera donc que le village de Ridgetown et les cantons de Howard, Orford et Euphemia qui étaient compris dans le district Bothwell pour 1881, ne paraissent pas dans ce district pour 1891, et que le village de Wallaceburg et le canton de Chatham qui se trouvent dans le district Bothwell en 1891, ne s'y trouvaient pas en 1881.

L'Acte de redistribution de 1892 a causé encore d'autres changements. Nous donnerons dans le dernier volume de ce rapport, un tableau indiquant la population d'après la dernière redistribution.

Afin de pouvoir y référer plus facilement, les divisions géographiques ont été mises de côté; les provinces et toutes les autres divisions et subdivisions ont été inscrites par ordre alphabétique. Nous espérons que ce changement facilitera beaucoup tout travail ou recherche concernant les statistiques contenues dans les différents volumes de ce recensement.

Afin de diminuer autant que possible les dimensions de ces volumes, la superficie des divisions et subdivisions a été entrée dans un tableau spécial. De cette manière, on a pu insérer 25 colonnes sur une seule feuille du tableau II au lieu de 21 pour le recensement de 1881. Nous avons encore amélioré le tableau en mettant un numéro correspondant pour chaque ligne aux marges droite et gauche de chaque feuille.

#### TV

Les seules en-têtes du Tableau II qui demandent peut-être des explications, sont celles qui ont trait aux demeures temporaires, sous les titres de Navires et Chantiers. On n'entend ici parler que des navires qui au jour du recensement étaient habités par des ménages; l'énumération de la marine marchande du pays appartient à une autre partie de ce rapport. Le mot Chantier est pris ici dans son acception locale, pour désigner des demeures élevées à la hâte, ou encore les loges mobiles des populations nomades. Dans la description des maisons d'après les matériaux de construction, on en a trouvé 632 "non décrites" et 227 construites en mottes de gazon, ce qui donne sur un total de 855,535 maisons de toutes description une proportion beaucoup au-dessous d'un dixième d'un pour cent, ce qui prouve le soin que les énumérateurs ont mis dans l'exécution de leur travail. Ces 859 demeures ne sont pas inscrites au tableau. Par provinces, elles sont divisées comme suit: la Colombie-Anglaise, 1; Manitoba, 65; Nouveau-Brunswick, 65;

Brunswick, 65; Nova Scotia, 67; Ontario, 214; Prince Edward Island, 3; Quebec, 217; and the Territories, 227. The figures in the Territories represent "sod" houses.

In table III. the columns headed "French Canadian" and "others" require some explanation. An attempt was made by means of these columns to ascertain the number of French Canadians and French Acadians in the several provinces of the Dominion. It was intended that the French Acadians should be enumerated in the columns marked French Canadians and instructions were given accordingly. Each person who was asked the other questions in the Census schedules, was also asked if he or she was a French Canadian (or Canadian French), or a French Acadian (or Acadian French) and the answers given were noted in these columns by the enumerators.

It has been claimed, however, with much appearance of reason, that the column headed "French Canadians" does not show the number of persons of French origin in Canada; that in the case of Acadians in the Maritime Provinces and the Half-Breeds of Manitoba and the North-west Territories, the question was misunderstood and that in the Province of Ontario owing to various causes, many persons of French Canadian origin have not been so enumerated.

This fact is here noted so that persons, using the results published, may not be misled by supposing that the number of persons of French Canadian *origin* has been ascertained with precision or that the actual increases or decreases are such as a comparison with former Census returns might seem to show.

The answers given to the enumerators have been correctly compiled and placed before the public.

In table IV. relating to religions, two points may be noted. In any comparison between the results of 1891 and those of 1881care should be taken to note that in the case of the Church of England, the reformed Episcopal Church appears in a separate column in 1881 but under the general column "Church of England" in 1891. On the other hand the Mennonites were included among Baptists in 1881. But objection having been made, they are not included among Baptists in 1891.

The other tables of this volume require no remark. The usual index and analytical table of contents have been appended.

No pains have been spared to obtain the information necessary for the execution of so important a work as this, which is in no respect inferior as regards exactitude to works of a similar kind published in any other country. It cannot be expected that so extensive a work should be absolutely perfect. That would be to ask what is simply impossible. All that fairly can be required is the relative exactitude which has been secured in the present Census.

Fifteen bulletins have been issued on the following subjects:—

Bulletin No. 1, population of cities, town and villages for 1881 and 1891.

- " 2, population of Ontario by sub-districts for 1871, 1881 and 1891.
  - " 3, population in detail of Eastern Provinces for 1871, 1881 and 1891.
- " 4, population of Province of Quebec, for 1871, 1881 and 1891.
- " 5, population of Manitoba, British Columbia and North-west Territories.
- " 6, dwelling places of the people.
- " 7, live stock in the North-west Territories.

Nouvelle-Ecosse, 67; Ontario, 214; l'Ile du Prince-Edouard, 3; Québec, 217; et les Territoires, 227. Ces derniers chiffres des Territoires représentent le nombre de maisons en mottes de gazon.

Dans le tableau III, les colonnes sous la rubrique "Canadiens-français et autres" demandent quelque explication.

On a essayé de découvrir, au moyen de ces colonnes, le nombre de "Canadiens-français et "d'Acadiens-français" dans les diverses provinces du Canada. L'intention était de mettre les Acadiens-français dans la colonne intitulée Canadiens-français, et des instructions furent données à cet effet. Toute personne à qui l'on a posé les autres questions comprises dans les tableaux du recensement, devait aussi répondre, si, il ou elle, était Français-canadien, ou Canadien-français, ou Français-acadien, ou Acadien-français, et les réponses données furent mises dans ces colonnes par les énumérateurs du recensement.

On a prétendu cependant, avec beaucoup d'apparence de raison, que la colonne intitulée "Canadiens-français" n'établit pas le nombre de personnes d'origine française en Canada; que dans les cas des Acadiens des provinces maritimes, et des Métis du Manitoba et des Territoires du Nord-Ouest, la question avait été mal comprise, et que dans la province d'Ontario, pour diverses causes, plusieurs personnes d'origine canadienne-française n'ont pas été énumérées comme telles.

Il est fait mention de ce fait, afin que ceux qui se serviront des résultats publiés ne soient pas mis sous une fausse impression en supposant que le nombre de personnes d'origine canadienne française a été donné avec précision, ou que les augmentations ou diminutions réelles sont telles que semblerait le démontrer un rapprochement avec le recensement précédent.

Les réponses telles que données aux énumérateurs ont été compilées et soumises au public.

Dans le tableau IV des religions, nous remarquerons deux choses ; en faisant une comparaison entre le recensement de 1891 et celui de 1881 que l'Eglise Episcopale Réformée qui était inscrite dans une colonne spéciale en 1881, est comprise dans la colonne générale de l'Eglise d'Angleterre en 1891; d'un autre côté, les Mennonites, étaient inscrits avec les Baptistes en 1881, mais certaines objections ayant été soulevées, ils ne s'y trouvent pas pour 1891.

Les autres tableaux de ce volume ne demandent point d'explication. Un index et table analytique des matières y ont été ajoutés.

Rien n'a été épargné pour obtenir les renseignements dont on avait besoin pour l'exécution d'un travail aussi important que celui-ci, lequel, quant à l'exactitude, nele cède en rien aux travaux de ce genre publiés dans les autres pays. On ne peut exiger qu'un ouvrage aussi considérable soit parfait : ce serait demander l'impossible. Tout ce qu'il y a lieu d'exiger, c'est une exactitude relative qui, nous en avons l'espérance, a été obtenue pour ce présent recensement.

Quinze bulletins ont été publiés comme suit :-

Bulletin n° 1—Population des cités, villes et villages, 1881-1891.

" n° 2—Population des sous-districts de la province d'Ontario, 1871-81-91.

n° 3—Population des provinces maritimes de l'est, 1871-81-91.

" n° 4—Population de la province de Québec, 1871-81-91.

ouest et de la Colombie-Britannique.

" n° 6—Maisons habitées par la population du Canada.

" n° 7—Animaux de ferme des Territoires du Nord-Ouest

Bulletin No. 8, first report upon industrial establishments.

" 9, religions of the people.

" 10, second report on industrial establishments, with comparisons.

" 11, nationalities of the people.

" 12, third report on industrial establishments, cities, towns and villages, 1891 and 1881.

" 13, fourth report on industrial establishments (wages).

" 14, mortality of the people.

" 15, causes of death in Canada.

The demand for these has been great and it is proposed to issue several more so as to cover all the information obtained from the Census.

Bulletin n° 8—Industries manufacturières du Canada. 1re série.

- ' n° 9—Religions de la population du Canada.
- " n° 10—Industries manufacturières et comparaison avec les recensements précédents. 2e série.
- " n° 11—Nationalités.
- " n° 12—3e série, industries manufacturières, cités, villes et villages du Canada, 1881-91.
- " n° 13—4e série, industries manufacturières, gages.
- " n° 14—Décès, Canada.
- " n° 15—Causes des décès en Canada.

Il y a eu une bien grande demande pour ces bulletins, et l'on se propose d'en publier encore un grand nombre qui comprendront tous les renseignements contenus dans le recensement.

Halifax ne sont pas comprises dans ces chiffres.

<sup>\*</sup> Included in another municipality in 1871.—Comprise dans une autre municipalité en 1871.

† The population in the 1881 column includes the same boundaries as in the 1891 column, and consequently differs in these cases, where annexations have taken place since 1881, from the population as given by the census of 1881.—Dans la colonne de la population pour 1881, les limites des villes sont les mêmes que celles qui existaient en avril 1891; conséquemment les chiffres de la population pour les villes où il y a eu extension depuis 1881, différent de ceux qui se trouvent dans le rapport du recensement de 1881.

‡ The imperial troops stationed in Halifax are not included in these figures.—Les troupes en garnison à
